Web Developer with 5+ years of experience specializing in Webflow, frontend development, website deployment, software research, and integrations. Proficient in developing responsive, user-centric web solutions and converting design concepts into clean, functional interfaces. Experienced in managing projects across multiple technologies with a strong focus on problem-solving, quality, and continuous learning.

EXPERIENCE

Webflow / Frontend Developer

Caliber Design

Aug 2025 - Present

Surat, Gujarat, India

- Converted Figma designs into responsive, pixel-perfect Webflow websites.
- Built scalable websites using Webflow with the Client-First structure.
- Implemented custom animations and interactions using GSAP, Splide, and Swiper.
- Integrated Memberstack and payment solutions, including PayPal payment systems, to support dynamic website functionality.
- Developed client projects with a strong focus on responsive design, usability, and performance.
- Collaborated with design and development teams to deliver user-focused, high-quality web solutions.

Freelance Webflow / Frontend Developer

Freelancer

Sep 2024 - Jul 2025

Remote

Webflow / Frontend Developer

Onlee Agency

July 2019 – Aug 2024

Rajkot, Gujarat, India

- Translated design concepts into responsive, functional websites using Webflow.
- Developed user-friendly web experiences with strong attention to usability, visual quality, and performance.
- Built custom sections and interactive elements to support engaging and modern website experiences.
- Worked closely with designers and team members to ensure smooth project delivery and consistent output.
- Tested, debugged, and optimized websites for responsiveness, browser compatibility, and overall stability.
- Followed a client-first approach to create scalable, maintainable, and high-quality web solutions.
- Actively participated in and conducted code reviews, provided a collaborative and knowledge-sharing environment within the development team.
